

### Club report Summer 2010

Club: Bath University Guides & Scouts  
SSAGO Rep: Laura Carter

This semester has seen Bath University Guides & Scouts (BUGS) participate in another enjoyable and varied programme of events. These include a visit to Victoria Falls Adventure Golf and the A to Z of Bath wide game. Weekly attendance has been steady throughout the semester including during the exam period where we held both a "De-stress BBQ" and a "Chill out pub lunch". The term was concluded with a summer camp to Harry's Island in the New Forest. During our camp we visited scouting and guiding routes with a trip to Brownsea Island, completed a hike and visited the beach- regardless of the rain and wind!!!

This semester BUGS were very proud to receive an award from the Students' Union recognising "Outstanding contribution to the community of Bath". Over 60% of our members are either leaders or helpers with many of the Bath scout or guide groups.

Looking forward to next semester we have an exciting programme of events already planned. Freshers will be welcomed into BUGS by an introductory freshers meal at Say Pasta. We have also planned a freshers camp to take place within semester one where we have archery, climbing and shooting already confirmed as activities on offer over the weekend.
