

🐝🐝🐝 StinGS club report Spring 2016 🐝🐝🐝

Our first event after Cardiff rally was a cheese and wine social. After that we decided to go ice skating in preparation for the cold winter ahead. By complete coincidence HUGS were there as well. We had lots of fun skating and no one got any fingers chopped off so I think that counts a success. After that we noticed Christmas was soon so decided to do a Christmas crafts event. Many Christmas themed things were crafted. (HUGS also decided to do a Christmas crafts event on the same day as well. We reckon they're copying our programme). Before everyone went home for Christmas we went down to our favourite pub, Fagans, and had curry for our Christmas meal.

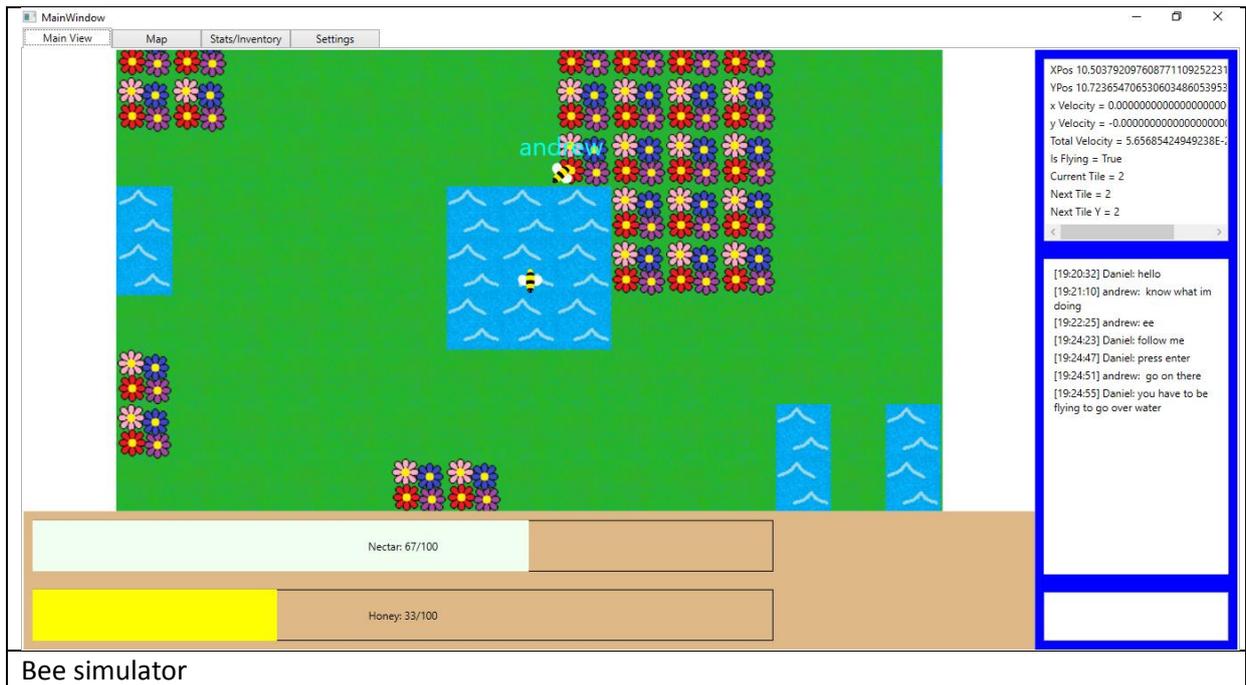

After everyone was back after exams had finished we had the refreshers fair. We had several people sign up and join our Facebook group as a result. Since then we've only done one proper event so it is yet to be seen how many will stay around. The next day we decided to meet up for a few welcome drinks before we started properly. A couple of the people that signed up at the refreshers fair came along and seemed very interested. After that was FEB-U-RALLY. It was a bit cold but the rain mostly held off and everyone seemed to have a good time. After that we went bowling and apart from constantly changing each other's names to ever stupider and funnier things everyone had a good time. Also for future reference it's recommended to book lanes in advance unless you want to wait around ages for them to be free.

Other than all those events we as always went to the usual pub quiz every Sunday. And we've actually started winning. For three weeks in a row we won the tie breaker question (although not the actual main quiz) and one a free pint. All we had to do was make sure our answer ended in $59\frac{1}{2}$.

Other than that our group now has its own video game, Bee Simulator. An online multiplayer game where you play the role of a bee, going about your life, doing bee things. At the moment the game is in the pre-alpha stage, hopefully having a releasable version later this year.

Two of our mascots + 1 at the Clifton suspension bridge on FEB-U-RALLY. From left to right Wednesday, Sheep Bee, (Still to be named)
